

Amendments to the Specification:

Page 1, above the first paragraph and below the title, insert

-- Background of the Invention:

Field of the Invention: --.

Replace the paragraph between lines 6-18 on page 1 of the with the following:

--The invention is based on a method for determining the position of a second component in a stepped bore of a housing, in particular an injector housing, having two bores of two different diameters, the second component in the second bore being intended to be arranged at a predefined distance from a lower side of a first component, which is already fixed in the smaller first bore, and a coining ring being inserted into the larger, second bore up to a step of the stepped bore, which a die compresses until the predefined distance from the first component is achieved and the second component then being inserted up to the compressed die ring, or an injector for fuel injection ~~according to the generic part of the independent Claims 1 and 7~~ into an internal combustion engine of a motor vehicle.--

Page 2, between lines 28 and 30, insert

-- Summary of the Invention: --.

Page 5, between lines 2 and 4, insert

-- Brief Description of the Drawing: --.

Page 5, between lines 13 and 15, insert

-- Description of the Preferred Embodiments: --.

Page 13, line 1, Claims We claim:.
